- The user of this product is expected to follow the instructions given in operators' manual. Although all instruments left our warehouse in perfect condition and adjustment the user is expected to carry out periodic checks of the product's accuracy and general performance.
- The manufacturer, or its representatives, assumes no responsibility of results of a faulty or intentional usage or misuse including any direct, indirect, consequential damage and loss of profits.
- The manufacturer, or its representatives, assumes no responsibility for consequential damage, and loss of profits by any disaster (earthquake, storm, flood etc.), fire, accident, or an act of a third party and/or a usage in other than usual conditions.
- The manufacturer, or its representatives, assumes no responsibility for any damage, and loss of profits due to a change of data, loss of data and interruption of business etc., caused by using the product or an unusable product.
- The manufacturer, or its representatives, assumes no responsibility for any damage, and loss of profits caused by usage other than explained in the users' manual.
- The manufacturer, or its representatives, assumes no responsibility for damage caused by wrong movement or action due to connecting with other products.

## Bedienungsanleitung Users‘ manual Manual Utilizare <br> Elektronischer Winkel- und Neigungsmesser Electronic Angle and Slope Measurer <br> Multi-Digit pro <br> Aparat de masurarea inclinarii si a unghiurilor

## CARACTERISTICI

## ON/OFF

Buton de pornit/oprit
LASER
Buton de pornit/oprit raza Laser
CAL
Buton calibrare. Urmariti Instructiunile
$\%$
Setare unitatii de masura in grade
sau procente (\%)

## SOUND

Comutati Deschis/Inchis semnalul sonor. Pozitia 0 va fi confirmata sau nu de avertizorul sonor

## HOLD

Masurarea curenta privind inclinarea sau unghiul este "inghetata" pentru a puta fi citita atunci cand nu este vizibila direct. Apasand "hold" cifrele pulseaza. Dupa inca o apasare pe Hold, se revine la afisare directa.

## Setul Livrare contine:

Nivela de masurat unghiuri sau inclinari tip Multi-Digit pro, husa transport, baterii, manual

## FUNCTII

Masurare electronica a unghiurilor, masurare electronica a inclinarilor, nivela cu bula, pentru masutrare de unghiuri, inclinari, suprafete plane sau pante

## FEATURES

## ON/OFF

Switch on/off Multi-Digit pro

## LASER

Switch on/off laser beam
CAL
Calibrate the unit (see below instructions) \%\%
Set reading of inclination to degrees $\left({ }^{\circ}\right)$ or percent (\%)
SOUND
Switch on/off signal tone - $\left(0^{\circ}\right.$-position of inclination will be confirmed by a signal tone).

## HOLD

Current readings on inclination and angle will be frozen by pressing HOLD (figures are flashing). By pressing HOLD again figures will be released.

## KIT CONSISTS OF

AnIge and Slope Measurer Multi-Digit pro, padded bag, batteries, users' manual

## FUNCTIONS

Electronic angle measurer, electronic slope measurer, laser spirit level, for measuring angles, inclinations, slopes and plane surfaces

## TECHNISCHE DATEN

| Domeniu Unghiuri | $0^{\circ}-180^{\circ}$ |
| :--- | :--- |
| Citire | $0,1^{\circ}$ |
| Precizie Unghiuri | $\pm 0,1^{\circ}$ |
| Domeniu inclinare | $0^{\circ}-90^{\circ}$ sau |
|  | $0 \%-100 \%$ |
| Setare UM | $0,1^{\circ}$ oder $0,1 \%$ |
| Precizie inclinare | $0,2^{\circ}$ |
| Distanta actiune Laser | 20 m |
| Precizie Laser | $\pm 0,5 \mathrm{~mm} / 1 \mathrm{~m}$ |
| Lungime de unda laser | 650 nm |
| Clasa Laser | 2 |
| Sursa baterii | $3 \times 1,2 \mathrm{~V} \mathrm{AA}$ |
| Durata viata baterii | 48 h |
| Lungime (deschisa) | $530 \mathrm{~mm}(1000 \mathrm{~mm}$ |
| Greutate | $1,3 \mathrm{~kg}$ incl. baterii |

## IMPORTANT

Calibrati inclinometrul:

- calibrati inainte de prima utilizare
- inainte de masurarile principale
- dupa ce a stat in soare sau ger
- dupa largi fluctuatii de temperatura

## Bateriile

Deschideti compartimentul bateriilor si introduceti bateriile (respectand polaritatea)

Importanta: Cand simbolul bateriei clipeste pe display, acestea trebuiesc inlocuite

## Verificare si Calibrare

Desfaceti bratul la 180 grade si blocati-l in aceasta pozitie. Asezati pe o suprafata plana si apasati tasta "ON".
Asteptati 10 sec si va afisa valoare inclinarii pe display-ul din stanga. Intoarceti cu 180 grade ca in pozitia B. Asteptati 10 secunde pentru a masura aceasta valoare. Daca diferenta dintre cele 2 valori este mai mare de 0,2 grade, nivela Multi Digit pro trebuie sa fie calibrata.

## TECHNICAL DATA

48 h
$530 \mathrm{~mm}(1000 \mathrm{~mm}$
$1,3 \mathrm{~kg}$ incl. batteries

## IMPORTANT

Calibration of inclinometer:
calibrate before first use

- before important measurements
- after a hit or drop
- after a large fluctuation in temperature

## Batteries

Open the battery compartment cover and put in batteries (take care of polarity).

Important: Battery symbol flashes when batteries need to be replaced.

## Checking of calibration

Unfold arm to $180^{\circ}$ and lock it in this position. La down unit to a flat surface (position A) and switch on.
Wait 10 sec . and note down measured value of inclination (left display). Turn unit by $180^{\circ}$ to positi on B. Wait 10 sec . and note down measured value If deviation between the two values is more than $0,2^{\circ}$ Multi Digit pro has to be calibrated

## Cum se Calibreaza

Deschideti nivela la 180 grade si blocati－o in aceasta pozitie．Asezati－o pe o suprafata plana，ca in pozitia A si apasati tasta Deschis（ ON ）
a）Asteptati 10 secunde－apasati CAL（pe display apare ＂ 0 ＂si asteptati in continuare 10 secunde
b）Apasati CAL，pe display va aparea＂1＂－intoarceti nivela cu 180 grade ca on pozitia B（ procedati ca la poz A） c）Asteptati 10 secunde－apasati din nou CAL＝＞Procesul c）Asteptati 10 secunde－ap
de Calibrare este complet．

## Masurarea Inclinarilor

Porniti Nivela Multi－Digt Pro
Masurarea valorii inclinarii este vizibila in display－ul din stanga．Unitatea de masura standard este gradul， dar poate fi schimbat in procente，apasand pe butonul respectiv．Apare valoarea in grade si daca este in apropierea valorii de 90 grade sau 0 grade，apar si sageti care arata directia de miscare pana la valoarea respectiva．
$0^{\circ}-45,0^{\circ}$ Valoarea principala 0 grade
$45.1^{\circ}-90^{\circ}$
Valoarea principala 90 grade

In apropierea valorii 0 apar sagetile de conducere pentru a miscarea nivelei mai usoara． Urmati sagetile！

| $\underline{\underline{\underline{1}}}$ |  |
| :--- | :--- |
| 0.3 |  |
|  | $\overline{\mathrm{~F}}$ |

Display－ul inverseaza automat afisarea cifrelor atunci cand Nivela este folosita in masurari＂peste cap＂， astfel valorile pot fi citite in orice pozitie．

## How to calibrate

Unfold arm to $180^{\circ}$ and lock it in this posi－ tion．Lay down unit to a flat surface（posi－ tion A）and switch on．
a）Wait 10 sec．－press CAL（Display shows „ $0^{\prime \prime}$ ）and wait further 10 sec ．
b）Press CAL（Display shows＂1＂）－turn unit by $180^{\circ}$ to position B（lay on same position as in A）．
c）Wait 10 sec．－press again $\mathrm{CAL}=>$ cali－ bration process completed．

## Measurement of inclination

## Switch on Multi－Digit pro．

Measured inclination value is shown in left display．Standard unit of measurement is degrees $\left(^{\circ}\right)$－can be changed to percent（\％） by pressing button „${ }^{\circ} / \%^{"}$ ．Lay unit on sur－ face with blank bottom side only． The 2 arrows in the display indicate which direction Multi－Digit pro has to be moved in order to reach $0^{\circ}$ or $90^{\circ}$－position．
$0^{\circ}-45.0^{\circ}$ Leading to $0^{\circ}$－position $45.1^{\circ}-90^{\circ} \quad$ Leading to $90^{\circ}$－position

The exact „ $0^{\prime \prime}$－position is shown by double－ arrows．

## ${ }^{\underline{\underline{\underline{1}}}} 0.3^{\circ} \overline{\overline{\mathrm{T}}}$

Display has automatic digit inversion for over－ head measurements．Reading of measured values is possible in every position．

## 彦 0.0 •釒

## Masurarea Unghiurilor

Sunt masurate unghiurile in display－ul din dreapta Unghiul masurat este unghiul format intre cele 2 segmente ale nivelei，intre 0 si 180 grade．

## 1

Raza Laser
Multi－Digit pro poate fi folosita ca nivela si extinsa lungimea prin folosirea fascicolului laser，pana la 20 m ．
Trebuie luata in calcul diferenta de inaltime de la suprafata de masurare a nivelei pana la orificiul de iesire a laserului care este de $30,5 \mathrm{~mm}$

Conexiunea cu Trepied Foto
Datorita conectorului filetat de $1 / 4^{\prime \prime}$ ，nivela se poate fixa pe un trepied tip fotografic

## Blocare brat

Se poate bloca la valori prestabilite，folosind－o pentru a treansfera mai usor unghiuri，exm 90 grade sau se poate bloca atunci cand este extinsa la 180 grade，ajunge sa masoare 1 m

## 5roced

## Intretinere si curatire

－Va rugam aveti grija de instrument
－Curatati cu o carpa moale，dupa orice utilizare
Daca este necesar，umeziti putin carpa cu apa．
－Mentineti nivela curata si uscata，in perfecta stare．
Introduceti nivela in husa，doar dupa ce este curata
si uscat
－Transportati－o in husa originala

## Angle measurement

Measured angle value is shown in the right display $\left(0-180^{\circ}\right)$ ．

Laser beam
By switching on the laser beam Multi－Digit pro can be used as laser spirit level，too．The working range extends to 20 m ．
The height of the laser from the base is 30.5 mm ．

## 新

Connection to camera tripod
With $1 / 4$＂thread（at bottom side）Multi－Digit pro can be connected to a camera tripod．

## Locking of arm

The foldable arm can be locked in any desire position．For example at an angle of $90^{\circ}$ to transfer right angles．Or at an angle of $180^{\circ}$ to extend the unit to 1 m （see diagram）：

## ecocord

## Care and cleaning

－Please handie measuring instruments with care．
－Clean with soft cloth only after any use．If
necessary damp cloth with some water
－If instrument is wet clean and dry it carefully．
Pack it up only if it is perfectly dry．
－Transport in original container／case only．

## INSTRUCTIUNI PROTECTIE

- Va rugam respectati instructiunile din manual - Nu priviti in raza laser. Poate provoca leziuni oculare Chiar de la distante mai mari, privitul in raza laser pot vatama ochii.
- Nu indreptati raza laser catre persoane sau animale - Nu asezati nivela la inaltimea ochilor persoanelor - Utilizati aparatul doar pentru masuratori
- Nu desfaceti carcasa. Reparatiile se vor face doar de catre personal autorizat. In caz de defectiune, contactati furnizorul
- Nu indepartati inscrierile de avertizare
- Nu utilizati nivela in medii explozive

## Cand sunt posibile erori

- masurarea se face prin ferestre cu geam sau plastic fereastra de emitere laser este murdara
dupa ce a stat in soare sau in ger. Verificati aparatul! Largi fluctuatii de temperatura. Atunci cand acesta est adus dintr-un alt mediu, lasati cateva minute pentru acomodare

## Clasificare Laser

aparatul are laser clasa 2 , produs in acord cu normele DIN IEC 60825-1:2003-10
Nu utilizati aparatul fara sa cunoasteti normele de protectie
Ochiul este in mod normal protejat de reflexul de inchidere a pleoapei.

Safety instructions:

- Please follow up instructions given in operators' manual
- Do not stare into beam. Laser beam can lead to eye injury. A direct look into the beam (even from greater distance) can cause damage to your eyes.
- Do not aim laser beam at persons or animals.

The laser plane should be set up above eye level of persons.

- Use instrument for measuring jobs only.
- Do not open instrument housing. Repairs should be carried out by authorized work shops only. Please contact your local dealer.
- Do not remove warning labels or safety instructions.
- Keep instrument away from children.
- Do not use instrument in explosive environment.

Specific reasons for erroneous measuring results

- Measurements through glass or plastic win dows;
- Dirty laser emitting windows;
- After instrument has been dropped or hit. Please check accuracy.
- Large fluctuation of temperature: If instrument will be used in cold areas after it has been stored in warm areas (or the other way round) please wait some minutes before carrying out measurements.

## Laser classification

- The instrument is a laser class 2 laser product according to DIN IEC 60825-1:2003-10
- It is allowed to use unit without further safety precautions.
- Eye protection is normally secured by aversion responses and the blink reflex.

Laserul clasa 2 este insotit de etichete de avertizare situate pe instrument

Interactiune Electromagnetica (EMC)

- Nu este complet exclus ca acest aparat sa interactioneze cu alte aparate ( exm: aparate de navigatie)
-sa fie deranjat de campuri intense de radiatii electromagnetice emise in apropierea unor instalatii industriale sau emitatoare radio

## Declaratii CE Conformitate

Instrumentul este produs in acord cu normele EE EN 61326:1997, EN 55022, EN 61000-4-2/-3 Este marcat

## Garantie

Aceste produse sunt garantate de catre producator ca sunt originale, si ca au fost folosite materiale de calitate fara defecte. Aceatsa garantie este valabila pentru o perioada de 2 ani de la data cumpararii, in conditii normale de utilizare.

- Pe perioada garantiei, de cand a fost cumparat, produsul va fi reparat sau inlocuite parti sau total, in functie de optiunile furnizorului.

In caz de defectiuni, consultati furnizorul dumneavoastra Garantia nu se aplica pentru produse deteriorate, utilizare excesiva sau gresita, cu elemente componente deteriorate datorita utilizarii defectuase.

Laser class 2 warning labels on the lase instrument.

## Electromagnetic acceptability (EMC)

- It cannot be completely excluded that this instrument will disturb other instruments e.g. navigation systems
- will be disturbed by other instruments (e.g. intensive electromagnetic radiation nearby industrial facilities or radio transmitters).

## CE-Conformity

Instrument has CE-mark according to EN 61326:1997, EN 55022,
EN 61000-4-2/-3.

## Warranty

- This product is warranted by the manufacturer to the original purchaser to be free fror defects in material and workmanship under normal use for a period of two (2) years fror the date of purchase.
- During the warranty period, and upon proof of purchase, the product will be repaired or replaced (with the same or similar model at manufacturers option), without charge for either parts or labour.
- In case of a defect please contact the deale where you originally purchased this product. The warranty will not apply to this product $i$ it has been misused, abused or altered.
Without limiting the foregoing, leakage of th battery, bending or dropping the unit are presumed to be defects resulting from misuse or abuse.
